## Doctor-Assisted PCOS Risk & Wellness Assessment

**Patient:** ridhi shinde (CT-001)
**Source:** Doctor Entry
**Generated:** 26 Sep 2026 10:39

## Current Assessment

Latest model probability: **22.7%**
Risk-awareness pattern: **Lower risk-awareness pattern**

## Longitudinal Follow-up

Baseline 0.7% → Latest 22.7% (+22.0% percentage points).

| Visit | Date | Type | Probability | Risk |
|---|---|---|---|---|
| 1 | 2026-09-26T00:44 | BASELINE | 0.7% | Lower risk-awareness pattern |
| 2 | 2026-09-26T08:19 | FOLLOW_UP | 22.7% | Lower risk-awareness pattern |
| 3 | 2026-09-26T10:35 | FOLLOW_UP | 22.7% | Lower risk-awareness pattern |
| 4 | 2026-09-26T10:35 | FOLLOW_UP | 22.7% | Lower risk-awareness pattern |

## What Changed?

| Feature | Baseline | Latest |
|---|---|---|
| Age (yrs) | 31.0 | 25.0 |
| BMI | 24.23822715 | 22.0 |
| Blood Group | 14.0 | 13.0 |
| Cycle | Regular | Irregular |
| Hair loss | No | Yes |
| Height(Cm) | 156.0 | 153.0 |
| Hip(inch) | 38.0 | 35.0 |
| Pimples | No | Yes |
| Pulse rate(bpm) | 72.0 | 73.0 |
| Skin darkening | No | Yes |
| Waist(inch) | 34.0 | 32.0 |
| Waist:Hip Ratio | 0.8947368421 | 0.88 |
| Weight (Kg) | 59.0 | 50.0 |
| Weight gain | No | Yes |

## Top SHAP Drivers

| Feature | Value | SHAP |
|---|---|---|
| Skin darkening (Y/N) | 1.0 | +0.0883 |

| Feature | Value | SHAP |
|---|---|---|
| Follicle No. (R) | 6.0 | -0.0868 |
| Weight gain(Y/N) | 1.0 | +0.0652 |
| Follicle No. (L) | 5.0 | -0.0608 |
| hair growth(Y/N) | 0.0 | -0.0386 |
| Cycle(R/I) | 1.0 | -0.0310 |
| Age (yrs) | 25.0 | +0.0309 |
| Cycle length(days) | 5.0 | -0.0206 |
| Fast food (Y/N) | 1.0 | +0.0170 |
| AMH(ng/mL) | 3.7 | -0.0169 |

## AI Recommendations

**1.** Consider adding sustainable regular physical activity, if appropriate for you.

**2.** Consider reducing highly processed or fast-food meals.

**3.** Track cycle timing consistently and discuss persistent irregularity with a qualified clinician.

**4.** Consider discussing persistent or multiple symptoms with a qualified clinician.

## Important

Educational prototype only. SHAP explains model behavior and does not establish causation. Model output is risk awareness support, not a medical diagnosis or treatment recommendation.
