Current Assessment

Latest model probability: **52.0%**
Risk-awareness pattern: **Moderate risk-awareness pattern**

Top SHAP Drivers

Feature	Value	SHAP
Skin darkening (Y/N)	1.0	+0.1748
Follicle No. (R)	5.0	-0.1353
Follicle No. (L)	5.0	-0.0642
Fast food (Y/N)	1.0	+0.0442
Weight gain(Y/N)	1.0	+0.0372
Marraige Status (Yrs)	0.0	+0.0356
Age (yrs)	22.0	+0.0344
Pimples(Y/N)	1.0	+0.0333
hair growth(Y/N)	0.0	-0.0316
AMH(ng/mL)	3.0665	-0.0314

AI Recommendations

1. Consider adding sustainable regular physical activity, if appropriate for you.

2. Consider reducing highly processed or fast-food meals.

3. Track cycle timing consistently and discuss persistent irregularity with a qualified clinician.

4. Consider discussing persistent or multiple symptoms with a qualified clinician.

Important

Educational prototype only. SHAP explains model behavior and does not establish causation. Model output is risk awareness support, not a medical diagnosis or treatment recommendation.
